EDUCATION

Dhirubhai Ambani Institute of Information and Communication Technology — Gujarat, India
MSc. Information Technology, CPI:7.6 — *Aug. 2023 – Present*

J G College of Computer Applications (Gujarat University) — Gujarat, India
BCA, CPI: 7.97 — *Aug. 2020 – May 2023*

Rajasthan English High School — Gujarat, India
12th, Higher Secondary School, Percentile Rank: 95.35 — *Aug. 2018 – May 2020*

Arjun English School — Gujarat, India
10th, Secondary School, Percentile Rank: 92.62 — *Aug. 2017 – May 2018*

EXPERIENCE

Software Developer — May 2024 – July 2024
Krishaa Consultancy — *Gujarat, India*

- Developed an grocery store website using HTML, CSS, JavaScript, PHP, and MySQL, enabling customers to browse, shop and get delivery from the comfort of their homes.

PROJECTS

OTT System | *PostgreSQL* — Sep 2023 – Dec 2023

- A SQL-based database was created for an OTT (Over-The-Top) platform, designed to manage a large dataset of over 1,000 entries. Following the Software Development Life Cycle (SDLC), a structured approach was implemented, starting from requirements gathering, analysis, design, development, and testing. This ensured that the database was tailored to meet the platform's content delivery needs, user preferences, and performance goals.

Hotel Management System | *php, MySQL* — February 2024 – April 2024

- Designed and developed a comprehensive hotel management application using PHP, incorporating key functionalities such as booking management, room allocation, guest profiles, and billing.
- Integrated MySQL for secure and scalable database management, and implemented user authentication, real-time room availability tracking, and dynamic reporting. Added features for staff management, inventory control, and customer feedback to streamline hotel operations.

Bookify | *React, Tailwind, Firebase* — February 2024 – April 2024

- Developed to streamline the process of buying and selling books.The front end is built using React.js, providing a dynamic and responsive user interface.
- Tailwind CSS was utilized to create a modern, visually appealing design that ensures a seamless user experience across devices, with efficient layouts and responsive components.
- For the backend, Firebase was integrated, serving as the core of the platform's services. By combining these technologies, Bookify offers an intuitive platform that makes it easy for users to buy and sell books, ensuring a smooth and enjoyable user experience.

Spotify Clone | *React JS, Node JS* — Jul 2024 – Aug 2024

- Developed a Spotify clone using React.js for a dynamic and responsive frontend, ensuring a seamless user experience. Integrated Node.js for the backend, managing API requests, user authentication, and real-time data streaming.Implemented ented robust RESTful services to handle playlists, track browsing, and media controls. Leveraged database integration for efficient storage and retrieval of user preferences and music metadata.

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL (Postgres), JavaScript(React, Node, Express), HTML/CSS, PHP, .NET.
Developer Tools: Vs Code, MySQL, pgAdmin, Postman, Linux Git, GitHub.
Interests: Data Structures and Algorithm, Web Development,DBMS, Computer Networking, Operating systems, SDLC.

ACHIEVENMENTS

- Solved 250+ problems on leetcode.
- Outstanding performance in some of the academic courses.
